

## **New Product From Marketing Xocolate International Corporation Now Available, Begins Shipping This Week**

*Xoçai™ X Power Squares the most powerful chocolate available*

RENO, Nev. (March 10, 2010) — [Xoçai™ X Power Squares](#) will begin shipping worldwide this week, Marketing Xocolate International Corporation ([MXI-Corp](#)) announces. The newest product to the [Xoçai™ line](#), X Power Squares, is now available for purchase through distributors or the corporation.

“The X Power Squares are the most powerful, health-promoting chocolate ever produced,” said Andrew Brooks, founder and executive vice president, MXI-Corp. “These squares contain a dynamic blend of cacao, açai berries and blueberries—they are loaded with antioxidants.”

X Power Squares use cacao that is blanched, unfermented, sun-dried, non-roasted and cold-pressed, meaning it boasts eight times the levels of epicatechins and catechins, and four times the levels of procyanidins than cacao produced with standard processing. X Power Squares are Brunswick Lab certified, meaning the product is approved by a third-party organization’s quality assurance program.

This product is all natural and is made with no artificial colors or flavors, preservatives or fillers.

“There are so many reasons to eat X Power Squares—from the unique formulation to being diabetic friendly, this product is a revolution in healthy chocolate,” said MXI Ambassador Adam Green, president of [Winner’s Circle International](#). “We are thrilled to now offer 10 items in the Xoçai™ product line.”

X Power Squares contain an unparalleled Oxygen Radical Absorbance Capacity (ORAC) value of 3,582 per each 6-gram square. As with all Xoçai™ products, X Power Squares should be stored in a cool, dry place.

### **About Marketing Xocolate International Corporation**

Established in 2005, Marketing Xocolate International Corporation ([MXI-Corp](#)) is the world leader in healthy, dark chocolate products. All MXI products are focused on potent doses of delicious, antioxidant-rich Belgian cacao. MXI-Corp believes that the high levels of natural antioxidants that are found in its cacao can provide a viable solution to individual nutritional needs. The Xoçai™ (sho-sigh) line, which currently includes nine products, is manufactured utilizing a cold-press process, which preserves the nutritional values of the company’s proprietary blends of vitamins and minerals. Nevada-based MXI-Corp is a privately held company. The Brooks family, owners and operators of MXI-Corp, have total combined chocolate sales of more than \$1 billion.
